Meeting at the Camp House To-Night.

Let all come to hear Mr. BRADBURN tonight, at the Rocky Mountain Camp, at 74 o'clock.

GLORIOUS NEWS!

We rejoice at the news, by our special dispatch, that the separate bill introduced by Judge Potter, this morning, giving the Grant of the North Western Road to the La Crosse Company, has passed the Assembly, with but six dissenting votes, and that this will pass the Senate and receive the signature of the Governor.

Railroad Meeting in Market Square.

The meeting to consider the subject of the ming, was an imposing assemblage of our citizens, all animated by one spirit, and the remarks of the speakers tell upon willing ears. There was no denunciation of the Governor, but everything was said and done in the calm. considerate, conciliatory spirit becoming the people of a great city, in maintaining a right-Cous cause.

At an early hour the meeting was called to order by Hans Crocker, Esq., who nominated Edward D. Holton for Chairman, and Chas. K Watkins for Secretary.

Mr. Holson, on taking the chair, spoke brief ly but eloquently, of the great labor and sacrifices which Milwaukee had done and soffered in the development of railroads in Wisconsin -of the vast sum she has at stake in them-of the fact that whatever has been done has been done without any aid from abroad-and of the right which the city has to a large voice in the disposition to be made of the Land Grant

The following gentlemen were appointed a committee on resolutions: Mesars E L Buttrick, Hans Crocker, O. H. Walde, S. M. Booth, J. G. Inbusch.

ion in regard to Slavery. Although this Convention has again and again uttered its testimony against slavery, the exigency which the events of the current time is continually urging upon our attention, forbids that we should rest upon testimony here-

tofore recorded and proclaimed. We rejoice that slavery has at length so far lifted its form to general view that its true features are more easily discovered. We are no longer constrained to deduce the genius of slavery from old history, or from occult principles of human mature. The cloud of slavery has broken within our hearing, and the biss of its electricity has disturbed the quiet of our atmosphere. Our brothers and our sous, far away, whose adicu has scarcely died from our ear, today stand exposed to its thunder, or perchance have had their tones ground under the We no longer say "danger impends," but we say "the catastrophe has overtaken us, and the work of

our own enslavement is half accomplished. While with gratitude we rejoice in so large a measure of civil and personal liberty as still remains to us, we cannot be blind to the fact that the wickedness of that wicked thing. these tranchises, and the mode in which we us them, are, to many, a rank offense.

The right to consult upon public affairs, and to concert measures of redress for grievances, is forcibly assailed. Men who have been impradent in this respect, are now skulking fugitives in our hand. Those elementary rights of this sympathies, prayers and exertions of the wiskind which necessarily inhere in the nature of man, and which have been declared and guaranteed by our National Constitution, are challenged.

Nor is there any well secured and pervasive religious freedom in our land. That too has been the subject of memore and curtailment, and in extensive regions has been yielded. We refer to a state of things perfectly well known. There are whole States where the body of truth, clearly standing in the Bible, parcel of the sole religion of the land, cannot safely be preached in its integrity. Penalties metre summary and awful than infringements of the titre mile net ever provoked, would certainly be visited upon him who should offer d in this particular.

Considered as P. whole, what is the extent to which freedom of the press, and what the security of the mails, that we still enjoy?

If the mailswere runninged by a vigilance committee in New Haven, and unsavory matter. plundered and bornt in the streets, that would doubtless dicit legal interposition; not so it that same scratiny and plunder shall occur in cities which we do not name: in them it is congruous, in keeping with precedents and to be accepted in silence.

In large States of this Union, the press, except upon one side, has no more freedom than it has in Austria. What would become of it, were no attempt made to give it larger scope, may be read in current events in Kansas.

At the beliest of all very the defences of personal liberty are cloven down. There is no force in law where slavery is in the ascendant, to protect an unpopular man. Do we draw from exceptional cases when we say there is no force in law to punish men of the superior class for his part of the work. Now if this could be billing men of the grade in life to which we of applied to human labor, there would be less this Convention belong? Nay-abundant examples and unvarying practice establish the general truth that the arm of the law is palsied in long regions of our country.

And this is called a patriarchal-a divine institution!

Let us inquire what has slavery, on which to base its pretensions. They cannot rest on our nexed account of these unprincipled nature-bistoric recollections. Souvery seeks neither de. fense nor apology in the intentions proclaimed It is a three story and attic building, about for-

Doubtless, many a staveholder holds himself a rightful helr to all the material profit of the celebrated curse upon Canaan. Oh, had the church been united in its condemnation of sla. very, its theologians, its preachers and its lairy, we should never have been reduced to the straits in which we now stand.

This Convention in view of all the respond. bilities which attach to it as a branch of the kingdom of Christ, I cols called upon in consistency with its former testimony, to declare against such teaching. This heresy. There is no basis in the bible that affords defense or paliation for American clavery. Its whole scope, in spirit and in letter is against it. A lavely and adorable feature of the Bible is, that it throws not chains, but battlements of Abulghij. ness and the musition of defensive rocks around the weak, the ignorant, and the defenceless,

"If then afflict any widew or fatherlesschild, and they cry unto me, I will surely hear their ory and my wrath shall wax bot, &c." We pronounce it a stand r upon the Bible,

This Convention is impressed with the coaviction that an argument cannot be constructed which shall justify the easlavement of any man which shall not overthrow the liberties of every man. An ancient example contains a motive not ob-olete and a st without point in application at this day, exhibiting the working of an alarmed conscience when they said, " We are verify guilty concerning one brother, in that we saw the auguish of his soul, when he besought us and we would not hear, therefore, is this disdistress come upon us."

Resilved .- That in view of the argressions of the slave power to our land, and the important crisis now at hand, it is our daily as men, as gitizons, and as christians, and ministers of the Lord Jesus Christ, to use our personal political and moral influence to correct partie opinion, and to arrest these tearful encrose hments. And as one means to this end, we recommend to the members of this body to observe the unit slavery monthly concert of prayer, on the 4th Salboh evening of each month. H. LYMAN, Chairman Com.

NEW YORK, Oct. 8. Arch Biskop Hughes publishes the subjained card in the merning papers:—The Arch Bishop of New York thinks it due both to the private feelings of Col Fretuout and his family as well as to reasonable sell respect, to state that he has nothing to do either directly or indirectly with a letter which is now being circulated throughout the newspapers, purporting to have been written by a McAmeter, editor and proprietor of the Freeman's Journal Several of these papers connect Arch Bishop Hughes's name jointly with that letter, and some of them go so far as to designate it as the testimony of Arch Bishop Hughes. Now the Arch Bishop is bound to say that whether as regards the matter especially alluded to in this letter or in regard to any other topic involving even by implication his name with any charges which could fix a stain on the private or personal character of Col. Fremout, he (the Arch Blshop) has not made or authorized any one make accusation against Mr. Fremont. This of course, is negative testimony, but a sense of justice, so far as the Arch Bishop is concerned will not permit him to withhold it.
